Iron and Steel Control

## PUBLIC NOTICE

Calcutta-1, the 16th September 1967

SUB: Surcharge on freight due to closure of Suez Canal and diversion of ships via Cape of Good Hope—Payment arrangements therefor against licences under AID and other loans.

No. 35/IP(PN)/67.—Attention of importers is invited to Iron & Steel Controller's Public Notice No. 29/IP(PN)/67, dated the 7th July, 1967, allowing automatic enhancement of values of licences on account of surcharge on freight due to the closure of Suez Canal and diversion of goods via the Cape of Good Hope.

2. Enquiries have been received as to how the payment of surcharge can be arranged against licences issued under AID and other loans. In this connection, it is clarified that since the contract is between the importers and their suppliers, it is for the importers to see whether they are liable to pay the surcharge under the terms of their contract. In case they accept the liability to pay the surcharge, the following drill may be

followed by them for arranging necessary payments to the suppliers/shippers:—

- (i) *Licences in respect of which letters of authorisation for opening Letters of Credit have been issued under AID Non-Project Loan 160.*

The surcharge, relating to U.S. flag commercial vessels, if payable by the importer to U.S. Suppliers/Shipping Company, would per se be eligible for financing under the AID Loan. Therefore, to enable U.S. Banks to make necessary payments under Letters of Credit, the importers should arrange for issue of instructions to them through their bankers to the effect that increased freight charges evidenced due to closure of Suez Canal and diversion via Cape of Good Hope may be paid by them under the Letter of Credit as long as the amount thereof is not exceeded. Simultaneously, when the amount of Letter of Credit, or that of L/C authorisation issued by the Iron and Steel Controller (DLF Credit Cell), 33, Netaji Subhas Road, Calcutta, is not sufficient to accommodate the surcharge and suitable increase thereof is required to cover all shipments, a request to this effect may please be made to the Iron and Steel Controller (DLF Credit Cell), 33, Netaji Subhas Road, Calcutta, as early as possible, so as to enable them to issue the necessary authorisation for the desired enhancement. It may please be noted that if the amount of desired enhancement is not covered by the value of the Bank Guarantee already furnished, the request for enhancement should be supported by an additional Bank Guarantee, or an amendment of the original Guarantee, covering the required increase. After issue of the additional authorisation for the requisite enhancement, action may be taken, through the Indian Bank concerned, for increasing the value of the Letter of Credit. But as long as the amounts of Letters of Credit already set up are sufficient to accommodate the surcharge, shipments and payments therefor can proceed, if the U.S. Bank is authorised to make such payments.

In regard to surcharge on Non-U.S. Vessels the increased freight charges can be remitted, like the normal freight charges, in the manner provided in clause XIV of the Appendix to Public Notice No. I&E/IV/10-13/66, dated 7-10-1966, as amended by Public Notice No. 4/AID/66, dated 3-12-1966.

**NOTE:—**In respect of goods already shipped against authorisations issued under loans 138 and 155, (since closed), for which the payments for surcharge are still outstanding, the question of their financing under loan 160 is under consideration and separate instructions in this regard will follow shortly.

- (ii) *Licences under German Loans and other Loans when Letter of Credit authorisations are issued by the Ministry of Finance.*

In these cases also, payments of surcharge can be arranged under Letters of Credit, if authorised by the importers, but where amounts of Letters of Credit or authorisation already issued are required to be enhanced, requests therefor should be made to the Ministry of Finance (Economic AID Accounts Branch) as early as possible, accompanied by additional Bank Guarantees, where necessary.

- (iii) *Licences under the U.K. Credits (Kipping Loan, Food Emergency Loan, etc.).*

These are all under the Direct payment procedure, i.e., payments to the U.K. suppliers are arranged, through Chief Accounting Officer, London, directly out of the credits.

In such cases, it has been agreed with the Ministry of Overseas Development the U. K. Government, that they shall make payment of surcharge without submission of amended contract certificate and contract Notification. Therefore, if the importers accept the liability to pay the surcharge, they should on receipt of documents from the suppliers, deposit the necessary rupee equivalent (inclusive of surcharge) in Government Treasury to the credit of Government and forward the documents, together with the Treasury receipt to Chief Accounting Officer, London, for arranging payment to the supplier/shipper, for the sterling amount,

inclusive of surcharge. The authority to Chief Accounting Officer, London, for making payment will be deemed to imply importers' approval for surcharge also.

- (iv) *Licences under other loans under Direct Payment procedure.*

Same procedure as for the U.K. Loans may be followed *mutatis mutandis*.

- (v) *Licences under IDA Non-Project Credit.*

Payments for surcharge, where payable, may be arranged by the importers against their licences in the usual manner, along with payments for FOB cost and normal freight charges.

- (vi) *Licences under other loans, under reimbursement procedure.*

Same as under (v) above.

#### PUBLIC NOTICE

Calcutta, the 18th September 1967

**SUB: Establishment of new re-rolling units in the Small Scale Sector.**

No. IND-I/54/66.—In the Iron & Steel Controller's Public Notice number IND-II/4/64, dated the 18th January, 1966, it was notified that permission, under clause 16 of the Iron & Steel (Control) Order, 1956, was no longer required to be obtained for setting up small scale re-rolling mills, with capital assets less than Rs. 25 lakhs. It was indicated, in the said Public Notice, for the information of persons desirous of installing such units, that the position regard the availability of raw materials (i.e. billets and re-rollable scrap) was extremely unsatisfactory, because of which it would not be possible for the Iron & Steel Controller to be of any assistance in the matter of procurement thereof.

2. A thorough assessment of the existing re-rolling capacity in the country has recently been made by a technical committee appointed by the Government of India for the purpose. The findings of the committee show that the re-rolling capacity already installed in the country exceeds 4.7 million tons per annum on two-shift basis. The capacity of a substantial number of small scale re-rolling mills, which had not responded to the questionnaire issued by the committee, is excluded from the aforesaid figure of 4.7 million tons. The actual capacity, therefore, may be of the order of 5 million tons. The aforesaid capacity of 5 million tons per annum, on two-shift basis, is not only much in excess of the existing availability of billets and re-rollable scrap but it is also much in excess of the estimated requirements of the products of re-rolling mills (viz. bars, rods and special sections) at present.

3. Having regard to the above, the Government of India have decided that setting up of new re-rolling mills in the small scale sector, which does not require any permission either under the Iron & Steel (Control) Order, 1956, or under the Industries (Development & Regulation) Act, 1951, should be discouraged. The Directors of Industries in the State Governments have been requested to take suitable steps in this direction.

4. It is hoped that entrepreneurs, planning to set up new re-rolling units in the small scale sector, will take due note of the position, as indicated in this Public Notice, and postpone their schemes until the supply position of raw materials and the demand for the products of re-rolling mills justify installation of new re-rolling capacity in the country.

S. SAHAY  
Iron & Steel Controller
